Employment

Freelance Developer / Travel, 2016 — 2017

I took a year off to travel, building apps and websites occasionally. My most recent work is highlighted at <http://cmcclister.com>.

Web Developer (Contract), Symphony, Palo Alto, CA, 2015 — 2016

Development and maintenance of corporate website, as well as internal application development, including a DITA-based CMS for in-product documentation, and analytics reporting tools. Technologies used include HTML5, CSS3, JS, AJAX, JSON, jQuery, Bootstrap, Node, Express, Angular, MongoDB, DITA, AWS, Git, Adobe CS, and JIRA.

Web Developer (Contract), Synapse Group, SF, CA, 2013 — 2015

Responsible for HTML, CSS and JS development on projects for Jack Daniels, Nordstrom, Citibank, Lowes, Sears, Skymall and other clients. Technologies used include both Mac and Linux environments, responsive design, HTML5, CSS3, LESS, AJAX, JSON, jQuery, Backbone, Git, node.js, Bower, NPM, Homebrew, Bootstrap, Modernizr, RequireJS, HammerJS, Adobe CS5, and JIRA.

Senior Presentation Layer Developer, Razorfish, SF, CA, 2011 — 2013

HTML5, CSS3 and JS development on projects for Intel, T-Mobile, Hyundai, PG&E, JPMorgan Chase and other clients. Technologies used include both Mac and PC desktops and mobile devices, Sass, LESS, AJAX, Node, Angular, Omniture and Google Analytics implementation, Parallels VM, MAMP, Cornerstone, SmartSVN, AccuRev, VLT, Maven, MS Visual Studio and Adobe CRX IDEs (including CRXDE), Adobe CS5, Sublime Text 2 and other code editors, Cyberduck and other FTP programs, VPN and JIRA.

Front-End Web Developer (Contract), SolutionSet, SF, CA, 2011

Front-end/UI development on projects for Bowflex, AT&T and American Express using HTML, CSS, JavaScript/jQuery and Adobe CS.

Web Developer, Clickability, SF, CA, 2008 — 2010

Middle-tier development of new implementations using Clickability's proprietary MVC framework for numerous clients, including AISH.com, IrishCentral, PR Newswire, Review Publishing, Swiss Re, Voice of America, Weider Publications, Winnipeg Free Press and Zenoss. In addition, I worked on several in house projects, including the Clickability Express Solution and the Knowledge Base code library using PHP, HTML, JS, AJAX, JSON, XML, MySQL, CSS, Salesforce and JIRA.

Web Developer, Ozone Online, SF, CA, 2007 — 2008

Developed websites for Autodesk and others using PHP, HTML, CSS, JS, jQuery, MySQL, Adobe CS and VMWare.

Web Developer, BoldFocus, Foster City, CA, 2005 — 2007

Maintenance and development of numerous business and organization websites using PHP, HTML, CSS, JS, MySQL and Adobe CS.

Education

University of California, Los Angeles: Microsoft SQL

California State University, San Bernardino: BA, Cultural Anthropology
